Continuity device to allow electrical and/or electronic signals to pass through a continuous 360 degree rotation.

APPLICATIONS

Cranes
Wind Turbines
Irrigation Equipment
Work Platforms
Rotating Signs
Processing Machinery
Conveyor Systems
Amusement Rides
Trucks and Forklifts
Intelligent Machinery
Anything that Rotates

Custom Cable Reels

Cable and cord handling device that allows for safe and convenient extension and storage.

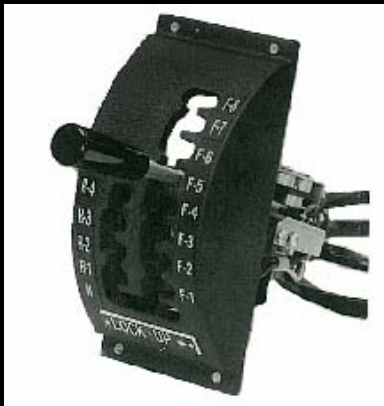

APPLICATIONS

Aerial Work Platforms
Bar Code Winding Controls
Conveyor Systems
Cranes
Forklifts
Forestry Equipment
Hoists
Light Towers
Material Handling Systems
Robotic Welding Cells
Teach Pendant Cable Controls
Theatrical and Stage Sets
Various Other Industrial Applications

Custom Shift Controls

Electric and electronic shift quadrants for input to automatic transmissions to control speed and direction in off highway vehicles.

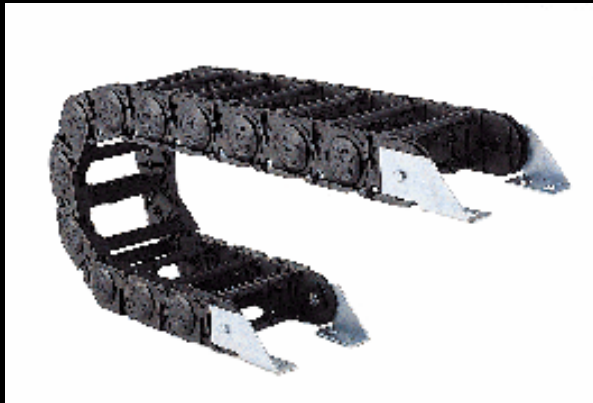

Applications

Construction Equipment
Rough Terrain Cranes
Airport Vehicles
Logging Equipment
Mining Equipment
Motor Graders

Custom Cable Chain

Our most recent product addition as an extension of our motion control devices. Chain encases hose and cable to allow rapid and continuous lateral movement.

APPLICATIONS

Material Handling
Robotics
Cranes
Light Towers
Production Machinery
