iowa EASYAir

Five Facts You can Share about Iowa EASY Air

1. **New online air quality permit applications available December 2019**
   a. Construction permits, including determinations, templates and registrations
   b. Title V operating permits

2. **Any facility can use Iowa EASY Air**
   a. All businesses and facilities that emit or will emit air pollutants

3. **Going online saves time and money by:**
   a. Reducing internal handoffs
      i. Multiple staff can view application at same time
      ii. No wet ink signature required
      iii. No mailing
   b. Cutting down on back-and-forth calls and emails with DNR
      i. EASY Air's data validation features ensure applications are complete
      ii. DNR is still available to help with EASY Air software
         1. Contact easyair@dnr.iowa.gov, or
         2. Kevin Connolly at 515-725-9569, or
         3. Jason Dowie at 515-725-9523
   c. Offering three payment methods
      i. Electronic check
      ii. Credit card
      iii. Mailed-in check

4. **Data migration from existing databases will help everyone**—industry and DNR
   a. EASY Air is prepopulated with existing data from SLEIS—State & Local Emissions Inventory System
   b. Reduces data entry—No need to enter all data separately for Title V and construction permit applications

5. **Future permit applications and emission inventories will be easier to complete**
   a. As permits are modified or added, EASY Air will update SLEIS
   b. Simplified future permitting projects and emission inventories
